WORK EXPERIENCE

UX UI Designer - Freelance

Falendi

Jan 2026 - Now

- Designed a B2B audit platform as part of a digital transformation initiative, replacing legacy document-based processes with a centralized solution.
- Translated pre-defined architecture and complex legal & financial workflows into clear user flows and intuitive interfaces across the full audit lifecycle.
- Delivered wireframes and high-fidelity prototypes in Figma, ensuring usability across data-heavy and multi-step processes.

UX UI Designer - Freelance

Raw AI Images

June 2025 - Oct 2025

- Designed and optimized responsive workflows for an AI-generated stock image platform with a mobile-first approach.
- Delivered user flows, wireframes, and interactive prototypes to streamline uploading, reviewing, and approving processes.
- Benchmarked competitor platforms to define key differentiators and strengthen the platform's unique value proposition.

Product Designer

Aptivio

Feb 2021 - May 2025

- Redesigned the desktop application in Figma to improve the user experience and usability.
- Designed a new mobile application to increase user engagement.
- Contributed to the creation and maintenance of a design system to ensure consistency and scalability across platforms.
- Designed and developed an onboarding wizard in HTML/CSS for new clients, reducing onboarding time from 20 days to 7 days.
- Worked in cross-functional teams using Scrum methodology in English.
- Collaborated closely with Product Manager, developers, and stakeholders to translate product requirements into wireframes, interactive prototypes, and high-fidelity designs in Figma.
- Participated in usability testing and continuous product improvement.

Customer Success Engineer - Internship

Aptivio

Sep 2020 - Feb 2021

- Communication with clients to understand their requirements.
- Custom configurations of Aptivio's B2B sales intelligence software.
- Managed CRM integrations.
- Provided customer support, including answering client requests, creating documentation, and providing trainings on the tool.
- Identified UX improvement opportunities based on user feedback.
